

TKIDZ FOR SCHOOLS

What is TT Kidz?

This is a fun, inspiring and engaging programme that can be used to teach the basics of table tennis to your students aged 7-11.

Who delivers TT Kidz?

TT Kidz can be delivered by any teacher!

The kit includes a table tennis training resource to make delivery easy and inspiring. Designed so that you can run the programme as a **curriculum based** session, an **after school club** or even as a **wet play** activity.

What are the benefits?

- Gets kids active and improves fitness.
- Children receive their own personal kit bags which encourages them to feel they are part of something special.
- Gives children the opportunity to learn something every week while building on previously learnt skills.
- Pre written, social and fun activities. No need to prepare lessons!

2 Course topics

**LEARN
NEW SKILLS**

What is covered in the programme?

Eight topics packed with learning!

Through a series of sessions, the children will learn all the basics necessary to enjoy a great game of table tennis ... keeping active, socialising, developing hand/eye coordination, developing core skills and generally having a great time.

4 Case study

Sir John Sherbrooke Junior School

Give something back to your teachers

“ The exposure to the sessions has upskilled the teachers and improved their confidence in table tennis delivery.

A programme that will allow every single child to achieve

“ It engages all the children, even those who would not typically take part as the programme is based on skills and games.

Build excitement and inspire your students

“ We took an all or nothing approach. We invested in the full kit bags, and bought the individual goody bags for the children. There is a banner at the front of the school, and we use the banner in every session. We felt that the more we put in, the more we would get out of it.

▶ Scan above to watch the video!

A session that can be delivered in any environment

“ We are delivering a 10-week programme of activity for the year 4's – usually in the sports hall, but sessions have also taken place in the classroom with the roll out nets transforming the classroom tables.
