Birmingham 2022 (B2022) Commonwealth Games Organising Committee and Sport England are pleased to invite community organisations to apply for sporting equipment which was used at the B2022 Commonwealth Games. The opportunity is open to organisations who provide inclusive and accessible sports, physical activity and wellbeing activities in communities in the West Midlands*. They will be encouraging participation and cohesion through sport while promoting the benefits of physical health and wellbeing for their community.

*Birmingham, Black Country, Coventry, Solihull and Warwickshire, Hereford and Worcestershire, Shropshire, Staffordshire.

Sport England's main purpose is to help everyone in England to get active regardless of their age, background or ability. This complements B2022's pledge to deliver an inclusive, accessible and sustainable Games. Both Sport England and B2022 are committed to tackling inactivity and extending the reach of sporting and physical activity opportunities, and these are set out in B2022's Physical Activity and Wellbeing Legacy Plan, [available here](#).

This sporting equipment includes an array of items from across the Commonwealth Games sports, such as basketballs, netballs, boxing gloves and Rugby equipment. There is also a range of consumable items which may indirectly help your organisation run activities such as, vacuum cleaners, mops and buckets and ice machines. A full list of the lots available are available via the Sports Equipment Gifting Legacy Catalogue: www.sportengland.org/equipmentgiveaway

PLEASE NOTE THAT AT THE POINT OF RELEASING THE LIST OF “LOTS”, WE ARE STILL COLLATING EQUIPMENT BACK FROM EACH GAMES VENUE. THERE WILL BE SOME ITEMS THAT HAVE BEEN BROKEN/DAMAGED OR LOST DURING THE GAMES AND/OR IN TRANSIT. THE FINAL LOTS MAY DIFFER THEREFORE FROM THAT PUBLISHED.

Who can apply?

Non-commercial, community-based organisations within the West Midlands*, such as local voluntary and community groups, schools, and educational establishments (for non-curricular activity), sports clubs, Community Interest Companies (CIC's) and social enterprises, who deliver, or would like to deliver, community-based projects which seek to tackle inactivity and promote the physical and mental benefits of leading an active life.

It is essential that as an applicant you meet the following criteria:

- Be an organisation who will use the equipment to deliver activity in the West Midlands* with all or a large majority of participants who live in the region.

[Return to the first page](#)

- Be a charitable and/or non-commercial organisation with a governing document.
- Confirm you have a safeguarding policy and equality, diversity, and inclusion policy.
- Be an organisation that:
 - *Provides low-cost access to sport and physical activity, in the context of the communities it serves*
 - *improves / sustains / increases sport and physical activity participation*
 - *sustains / increases the diversity of its participant base*
- Can demonstrate a clear need for the sports equipment
- Intend that the equipment will remain the property of the organisation and not become the property of individual participants

We expect to receive a high volume of applications for the supply of equipment available. We anticipate there to be applications from many eligible and worthy recipients, therefore in order to make a decision we will consider the following prioritisation factors:

- Small community organisations where there is the most need to support activity in the community
- Where organisations may not have the opportunity or ability to seek support elsewhere
- Organisations that support people who have previously felt excluded from getting active.
- Proportional distribution amongst a range of groups who support different audiences to become active.
- There is a spread of beneficiaries across the West Midlands region.

What this opportunity can't support:

- Applications from individuals
- Commercial organisations
- Where equipment would be for personal or commercial use
- Applications from Local Authorities
