***BEHAVIOURS**

The Performance team have outlined 8 core behaviours that we expect players to demonstrate when they are part of GB performance programmes. It is important that all players aspiring to become part of our programmes are aware of these and what they look like in practice. Take a look at our player development framework (launching soon) for an explanation of what these different behaviours look like across age groups in practice.

***HOURS** – hours listed are expected of the age group to support progression to the next stage, however, considerations will be given on a case by case basis

***EVENTS** – depending on the squad and the event, events will be a combination of self-funded, part-funded, and funded.
